- Integrated OAuth, Google Maps API and 3rd party API.
- Programmed with clean, modular, robust code using NPM and Cordova with Ionic platform.

PROJECTS

CAREERBUDDY APP

- **CareerBuddy** app targets to become a self-governance/ directional tool for upcoming and existing professionals. The application is based on the premise that stating, tracking, and monitoring professional goals is challenging for many people and if there were an easily accessible application which enables the above then people would utilize it to manage themselves (time, energy, effort) better.

BULESALT MEDIA

- **BULESALT MEDIA** provides a centrally manages digital advertising system that assists bars and restaurant in promoting their food, beverages, and events at the point of sale while not having to sacrifice existing TV screens - at no cost to them

ARITFICIAL INTELLIGENCE DIETICIAN

- **ARITFICIAL INTELLIGENCE DIETICIAN** pies a bot with artificial intelligence about human diets. It acts as a diet consultant similar to a real dietician. Dieticians are educated with nutrient value of foods. A dietician consults a person based on his schedule, body, type, height and weight.
